PROFESSIONAL EXPERIENCE

Software Engineer - WordPress

Global Rescue | Islamabad, Pakistan | Sep 2025 - Present

- Build and maintain WordPress features for a global travel-risk and rescue membership platform serving enterprise and consumer users.
- Deliver backend PHP, theme/plugin updates, and production support with a focus on reliability, security, and maintainability.
- Collaborate with product and engineering stakeholders to ship CMS improvements that support high-availability marketing and member-facing sites.

WordPress Developer

MaltaThemes / MaltaVisions | Islamabad, Pakistan | Feb 2022 - Sep 2025

- Developed and maintained custom WordPress themes, plugins, and Gutenberg blocks for a product studio shipping themes and social-feed plugins used by customers worldwide.
- Wrote production PHP for WordPress hooks, templates, and reusable blocks/components with an emphasis on clean architecture and CMS-friendly editing.
- Supported theme/plugin quality through debugging, performance considerations, and iterative feature delivery for B2B and B2C WordPress products.

PHP / WordPress Intern

Eziline Software House Pvt. Ltd. | Rawalpindi, Pakistan | Nov 2020 - Feb 2021

- Built and maintained client sites with WordPress and page builders, contributing to feature implementation and site delivery.

SELECTED PROJECTS

Trip Booking System - Custom WordPress/WooCommerce booking workflows for trip schedules, capacity, and commerce operations; live product with continued backend support.

Airtable to WordPress Sync Plugin - Automated data sync via cron jobs and custom plugin logic.

Amazon Multi-Country Product Fetch & Comparison Plugin - Cross-market product data retrieval and comparison UI.

Easy TikTok Feed Plugin - TikTok video, feed, and gallery integration for WordPress.

Non-Profit Donation Platform - WordPress donation experience with PayPal/Stripe API integrations.

Custom WordPress Theme with ACF Blocks & SEO Optimization - Block-based theme architecture, editable content models, and SEO-ready structure.
